

TON DUC THANG UNIVERSITY
VIET NAM – FINLAND INTERNATIONAL SCHOOL

***Subject bibliography:
“Environmental protection”***

2022-2023 School Year

INTRODUCTON

The natural environment plays an extremely important role in the life of humans as well as of animals, plants and microorganisms in general. However, the natural environment is increasingly threatened by humans' inadequate awareness of environmental protection. The increase in population and the influence of the 4th industrial revolution have made the natural environment increasingly vulnerable. Tons of household waste are released into the environment every day, but just over 20% of the waste is recycled each year.

In order to contribute to raising the awareness of each individual about environmental protection, the Library of Vietnam - Finland International School compiles a directory the subject "**Environmental protection**" including 11 books as follows:

1. Springboard Connect. 24c, Don't trash it
2. Cambridge reading adventures. From rags to bags
3. One plastic bag
4. Living green
5. Cây bút diệu kì : dành cho lứa tuổi 6+
6. Ông vua lãng phí và ông vua tiết kiệm : dành cho lứa tuổi 6+
7. Kì nhông đi thừa kiện : dành cho lứa tuổi 6+
8. Bác nông dân giun đất : dành cho lứa tuổi 6+
9. Giải cứu ong mật : dành cho lứa tuổi 6+
10. Báu vật vô giá : dành cho lứa tuổi 6+
11. Vườn bách thú lí tưởng : dành cho lứa tuổi 6+

In the compilation process, although we have tried our best, it is inevitable that there will be shortcomings. We look forward to receiving contributions and construction from readers so that the next compilation of the bibliography will be more complete.

Sincerely thank!

Springboard Connect. 24c, Don't trash it

Springboard Connect. 24c, Don't trash it / Janne Galbraith. - Australia : Macmillan Education Australia, 2014. - 24 p ; 21 cm.

428 SPR311B

Summary:

The book introduces an overview of issues related to environmental protection such as: energy use, ways and processes of waste recycling. This will be a useful document for readers new to environmental issues.

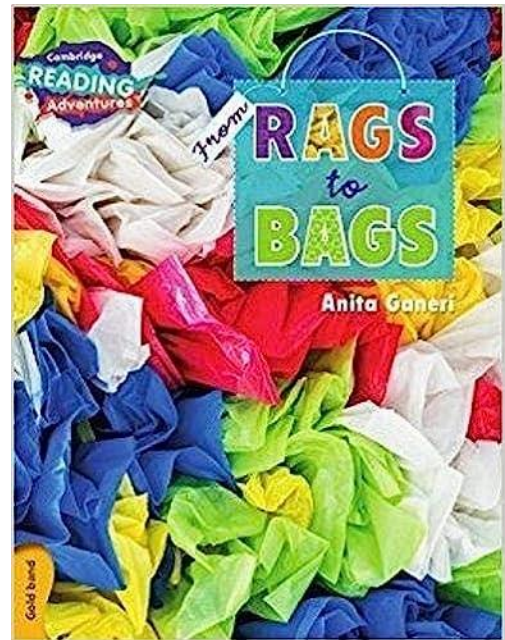

Cambridge reading adventures. From rags to bags
